It is important to emphasize, that this journal devotes special attention to Europe / EU as a crucial factor in the contemporary international affairs. Also, the journal editorial team encourages the submissions that treat Balkan issues, especially the attitude of the Balkan countries towards the European integration, and their place within the new international context.*

Journal of Liberty and International Affairs *is oriented towards a wide audience of interested fellow specialists, geared towards informing policy-makers and social workers, and to engage students. It is opened to any researchers, regardless of their geographical origin, race, nationality, ideological affiliation, religion or gender, as long as they have an adequate manuscript. Due to the fact that the journal addresses a wide range of academics we encourage presentation of research to be made at a level where it is understandable to a broad audience. The editorial team encourages both established and early career researchers and doctoral students to take part in this journal in order to stimulate a greater exchange of ideas and knowledge.*

Journal of Liberty and International Affairs *predominantly treats the topics of interest of political sciences, international relations and international law, but also seeks to provide a quality interdisciplinary platform of debate for scholars and researchers on complementary disciplines, including social sciences and economics. The content of the journal is based on pure academic research, with a tendency to achieve the highest standards of research and publishing. The journal benefits from the contribution of its International Advisory Committee (IAC) composed of experienced, agile and dedicated scholars and researchers. These scholars and researchers may be affiliated to a University or another academic institution; however, they participate in the IAC on a personal basis. Thus, their decisions are independent, unbiased by scientific or national prejudices, particular individuals or conflicting interests.*

Submitted manuscripts are subjects to initial editorial screening and anonymous peer-review at least by two reviewers. The journal editorial policy requires that each manuscript will be reviewed by individuals who are experienced and experts in the particular field of the submitted manuscript (e.g. political sciences, law, social sciences or economics).
